

# ISLCCC

INTERNATIONAL SYMPOSIUM  
ON LATE COMPLICATIONS  
AFTER CHILDHOOD CANCER

**2026**

**JUNE 4-6 2026**

**GENOVA, ITALY**

## WELCOME LETTER

### Welcome in Genova for ISLCCC 2026!

On behalf of the ISLCCC Scientific Committee we are pleased to welcome all the delegates to the 5<sup>th</sup> International Symposium on Late Complications after Childhood Cancer.

We are sure that the meeting will enable delegates from 4 continents to share the results of their research, discuss about new ideas, implement networking and establish future collaboration. The programmed lectures and the panel discussions will address several hot topics in survivorship research which will be complemented by the oral presentation of abstracts selected by the program committee. Indeed, this process was particularly challenging due to the very high quality of the 156 submitted abstract that made the final decision very difficult. However, abstracts that were not selected as oral presentation will be allocated significant space both as poster viewing and discussion in dedicated sessions of the congress

Trying to make your stay in Genova as much enjoyable as possible, we have also organized some social events during which we will give the opportunity to enjoy some culinary specialties (including but not limited to “pesto” and “focaccia”!) from our Region and experience some authentic aspects of Genoese culture and lifestyle deeply connected to our maritime heritage that has always shaped our Region.

We hope this meeting will fully meet your expectations and provide a fruitful and inspiring experience. We also hope you will have the opportunity to enjoy some pre or post conference sightseeing in our beautiful city and its surroundings, and that you will return safely to your institutions enriched by excellent science, new friendships, and, last but not least, wonderful memories of your time here.

Last, but not least, we want to express our gratitude to the Genova Municipality, the several charities which regularly support our Department, and the pharma companies who all have generously supported this initiative which couldn't have been so successfully organized without their contribution. Wishing to all of you an enjoyable stay in Genova,

Sincerely,

The local Organizing Committee  
*Riccardo Haupt*  
*Monica Muraca*  
*Carlo Dufour*

*Genova, June 4, 2026*

## PROGRAM

THURSDAY  
JUNE 4

- 12:15 - 14:15 **PRE-MEETING:**  
International Guidelines Harmonization Group (IGHG)  
Hosts: *Melissa Hudson, Leontien Kremer, Renée Mulder, Matthew J Ehrhardt, Elvira C van Dalen*
- 14:00 - 15:00 **Registration and Welcome Coffee**
- 15:00 - 15:15 **OPENING REMARKS AND GREETINGS FROM AUTHORITIES**  
Hosts: *Riccardo Haupt, Monica Muraca, Carlo Dufour*
- 15:15 - 16:00 **KEYNOTE (1):**  
Global Child Cancer Survivorship Guidelines: An Emerging Unmet Need for Resource Appropriate Guidance  
Introduced by: *Riccardo Haupt*  
Speaker: *Micheal Sullivan*
- 16:00 - 16:55 **ORAL ABSTRACTS 1**  
TOPIC: Implementation/Guidelines  
Chairs: *Matt Ehrhardt, Renée Mulder*
- The ASPIRES Study: Promoting Colorectal Cancer Surveillance in Childhood Cancer Survivors—A Randomized Intervention Trial from the Childhood Cancer Survivor Study (CCSS) | *Tara Henderson*  
Survivor/Caregiver and Health System Level Barriers to, Facilitators for, and Implementation Strategy Recommendations for Childhood Cancer Survivorship Care Delivery in Uganda | *Priscilla Nambalirwa*  
Continuity of Survivorship Care in Childhood Cancer Survivors: Risk-Based Follow-Up and Persistent Disparities | *Ksenya Shliakhtsitsava*  
Feasibility and diagnostic yield of the PanCareFollowUp Care intervention | *Selina Van Den Oever*
- 16:55 - 17:40 **PANEL DISCUSSION (1):**  
Thrive Mode: Healthy Living After Childhood Cancer  
Moderators: *Kristen Ness, Saskia Pluijm*  
Speakers: *Aaron Onerup, Elvira C van Dalen*
- 17:40 - 18:35 **ORAL ABSTRACTS 2**  
TOPIC: Thrive  
Chairs: *Kevin Krull, Gisela Michel*
- Improving Physical Activity Behaviors Among Childhood Cancer Survivors Through an Educational Intervention: A Mixed-Methods Pre-Post Study | *Jiaoyang Cai*  
Impaired fitness and strength in adolescent survivors of childhood cancer and their associations with treatment exposures and modifiable risk factors in the St. Jude Lifetime Cohort Study (SJLIFE) | *Deborah Ogunsanmi*  
Physical Activity Patterns, and Factors Associated With Low Physical Activity in the Dutch Childhood Cancer Survivors: a Dccss-Later 2 Study | *Renee Van Laarhoven*  
Digital health intervention for comorbid insomnia and neurocognitive impairment in adult survivors of childhood cancer: Results from a randomized clinical trial in the Childhood Cancer Survivor Study | *Tara Brinkman*
- 18:35 - 19:00 Poster viewing on your own  
**Evening Cocktail Reception**

07:00

The Dan Green Fun Run

07:30 - 08:00

**MENTEE BREAKFAST:**

Career Opportunity for Late-Effects Clinical Specialists  
Hosts: *Paul Nathan, Riccardo Haupt*

08:30 - 09:15

**KEYNOTE (2):**

Risk factors, Consequences and Management of Poor Bone Health in Childhood Cancer Survivors  
Introduced by: *Monica Muraca*  
Speaker: *Natascia Di Iorgi*

09:15 - 10:10

**ORAL ABSTRACTS 3**

TOPIC: Endocrine outcomes  
Chairs: *Greg Armstrong, Monica Muraca*

Reevaluating Bone Mineral Density Surveillance in Pediatric Acute Lymphoblastic Leukemia Survivors: a Single-Institution Retrospective Review | *Jennifer Dean*

Evaluation of Bone Mineral Density and Vitamin D Status in Long Term Survivors of Childhood Acute Lymphoblastic Leukemia in LMIC Setting | *Maya Malini*

Voxel-based analysis of dose-response relationships within the hypothalamuspituitary axis as a predictor of growth hormone deficiency: a multi-centre study | *Angela Davey*

An Exploratory Assessment of The GloBE-Reg Registry for Studying the Safety of Long-Acting Growth Hormone in Cancer Survivors (The SFE-Survivors Study) | *Monica Logan*

10:10 - 10:40

**Coffee Break**

Poster viewing on your own

10:40 - 11:35

**ORAL ABSTRACTS 4**

TOPIC: Cardiovascular  
Chairs: *Saro Armenian, Helena van der Pal*

Radiation Oncology Workflow-Integrated Individualized Risk Calculator to Comprehensively Predict Future Cardiac Disease Risk Among Pediatric and Adolescent Cancer Patients | *Rebecca Howell*

Coronary Artery Calcium Score after cardiac irradiation and/or anthracyclines exposure in childhood cancer survivors: the COROCAN study | *Rivalin Aho Glele*

Impact of treatment intensity on cardiometabolic outcomes among high cardiovascular risk childhood cancer survivors: a report from CCSS-CHIIP | *Eric Chow*

Predictive Value of Social Determinants of Health for Major Adverse Cardiovascular Events Among Childhood Cancer Survivors | *Elin Gustafsson*

11:35 - 12:30

**PANEL DISCUSSION (2):**

Priorities for the Future of Survivorship  
Moderator: *Monica Muraca*  
Speakers: *Leontien Kremer, Melissa Hudson*

12:30 - 14:00

**Lunch**

Poster viewing on your own

**MENTEE LUNCH:**

How to Develop a High Impact Research Proposal  
Hosts: *Greg Armstrong, Helena van der Pal*

14:00 - 14:45

**KEYNOTE (3):**

Psychosocial Factors and Employability in Childhood Cancer Survivors: Theoretical Insights and Practical Implications for Work Reintegration  
Introduced by: *Monica Terenziani*  
Speaker: *Alessandro Godono*

14:45 - 15:40

**ORAL ABSTRACTS 5**

TOPIC: Digital Health  
Chairs: *Monica Gramatges, Riccardo Haupt*

Long-Term Disability and Financial Burden Among Survivors of Childhood Cancer Using the WHO ICF Framework: A Report from the St. Jude Lifetime Cohort Study (SJLIFE) | *Joshua Burns*

Information and Support Needs of Childhood, Adolescent, and Young Adult Cancer Survivors (CAYACS) Across Europe: Results from the e-QuoL Project | *Anne Maas*

An Electronic Health Records-based Informatics Approach to Enhance Care for Childhood, Adolescent, and Young Adult Cancer Survivors Through Population Health Management | *David Noyd*

Feasibility and Acceptability of a Digital Mindfulness Intervention to Improve Stress, Coping, and Cardiometabolic Risk in Survivors of Pediatric Leukemia and Lymphoma | *Rachel Webster*

15:40 - 16:10

**Coffee Break**

16:10 - 17:10

**POSTER RAPID REVIEW**

Chairs: *Melissa Hudson, Leontien Kremer*

Psychological outcomes of parents of childhood cancer survivors – A summary of findings from the Swiss Childhood Cancer Survivor Study–Parents | *Peter Francis Raguidin*

Treatment-specific eQTLs in childhood cancer survivors of European and African ancestry | *Jennifer N. French*

Cardiorespiratory fitness and its determinants in adult childhood cancer survivors – Results of the CardioOnco Study | *Severin Fankhauser*

Ovarian Tissue Cryopreservation in Pediatric Oncology: Safe and Timely | *Monica Terenziani*

Comparison of Excess Risk of Late Mortality and Subsequent Malignant Neoplasms (SMNs) after Hodgkin Lymphoma (HL): a Childhood Cancer Survivor Study (CCSS) and Dutch Hodgkin | *Rawan A. Hammoud*

Health Status and Treatment Knowledge Among Anthracycline Exposed Childhood Cancer Survivors: the JCCG Survivor Study, Cardiovascular Working Group ePRO Survey | *Chikako Kiyotani*

Simplifying Inputs of Machine Learning-Based Risk Calculators to Improve Clinical Usability: A Report from the Childhood Cancer Survivor Study and the St Jude Lifetime Cohort | *Zhe Lu*

Secondary pancreatic diseases (pancreatitis, exocrine dysfunction and adenocarcinoma) in childhood cancer survivors: A report from the French Childhood Cancer Survivors Study (FCCSS) | **Brice Fresneau**

Effects of Social Determinants of Health on Entrance and Retention of a Survivorship Clinic | **Anthony Williams**

Pregnancy rates and pregnancy outcomes of female childhood cancer survivors – Findings from Swiss Childhood Cancer Survivor Study (SCSS) | **Chantal Martine Cudré-Mauroux**

Longitudinal Patterns of Epigenetic Aging among Long-Term Survivors of Hodgkin Lymphoma (HL): A Report from the St. Jude Lifetime Cohort (SJLIFE) | **Annalynn Williams**

Long term risk of subsequent thyroid cancer in survivors of childhood and adolescent cancer in Europe: A cohort study within PanCareSurFup consortium | **Florent De Vathaire**

Computational Approaches to Aid in Survivorship Care Plan Generation Using Electronic Health Record Data | **Karen E. Effinger**

Developing an evidence-based and theory-informed intervention to support survivors of childhood, adolescent and young adult cancer to be physically active: findings of The BEACON study | **Morven Brown**

Associations Between Physical Fitness and Fatigue in Adolescent Childhood Cancer Survivors: The PACCS Study | **Sara H. Johansen**

Ocular late effects among Swiss childhood cancer survivors | **Tiara Greber**  
Undernutrition in Childhood Cancer Patients - Results from a Swiss Multicentre Study | **Alice Sofia Calvello**

Global Prioritization of Survivorship Symptoms by Healthcare Providers to Inform a Standardized PRO Assessment Tool | **Elyse Zhang**

Subsequent Malignant Neoplasms after Neuroblastoma. A report from the Italian Neuroblastoma Registry (RINB) | **Federica Serafino**

Mapping Systems of Survivorship Care | **Sara Malone**

17:15 - 18:15 Poster Viewing with Poster Presenters On-Site

20:00 Social Networking Dinner at Genova Aquarium

08:30 - 09:15

**PANEL DISCUSSION (3):**

Should Female CCS at Elevated Risk for Breast Cancer Be Offered Hormonal Replacement Therapy?

Moderator: **Flora van Leeuwen**

Speakers: **Kevin Oeffinger, Matteo Lambertini**

09:15 - 10:10

**ORAL ABSTRACTS 6**

TOPIC: Subsequent Malignant Neoplasms (SMN)

Chairs: **Greg Armstrong, Cecile Ronckers**

Cancer Treatments-Related Factors for Subsequent Soft Tissue Sarcoma in Childhood Cancer survivors: A report from the PanCareSurFup consortium | **Allodji Rodrigue**

Association between Neighborhood-Level Social Vulnerability and the Incidence of Subsequent Malignant Neoplasms: A Report from the Childhood Cancer Survivor Study | **Taumoha Ghosh**

Transcriptome-wide association studies reveal key genetic contributors to subsequent neoplasm risk in childhood cancer survivors: a report from the St. Jude Lifetime Cohort and the Childhood Cancer Survivor Study | **Michael Betti**

Development and Validation of a Longitudinal Symptom-Based Mortality Prediction Model for Adult Survivors of Childhood Cancer | **Elyse Zhang**

10:10 - 10:40

**Coffee Break**

10:40 - 11:35

**ORAL ABSTRACTS 7**

TOPIC: Other

Chairs: **Scott Baker, Michael Sullivan**

Prevalence and Risk Factors for Ovarian Dysfunction Following Cancer Treatment in Childhood Cancer Survivors | **Gauri Kapoor**

Development and validation of diabetes mellitus risk prediction models in survivors of childhood cancer: a St. Jude Lifetime Cohort Study (SJLIFE) and Childhood Cancer Survivor Study (CCSS) report | **Cindy Im**

Pain Trajectories and Symptoms of Social Isolation and Loneliness in Adult Survivors of Childhood Cancer: a Report From the Childhood Cancer Survivor Study (CCSS) | **Cassie Argenbright**

Clinically Meaningful Symptoms in Adult Survivors of Childhood Cancer: A Comparison with the U.S. General Population Using the Modified Patient-Reported Outcomes Version of the Common Terminology Criteria for Adverse Events (PRO-CTCAE) | **Madeline Horan**

11:35 - 12:15

**Closing Remarks**

Best Oral Presentation and Best Poster Award Ceremony

CME information

ISLCCC 2027 and 2028 details

Host: **Riccardo Haupt, Monica Muraca**
